

Lambda & CodeDeploy

- **CodeDeploy** can help you automate traffic shift for Lambda aliases
- Feature is integrated within the SAM framework
- **Linear:** grow traffic every N minutes until 100%
 - `Linear10PercentEvery3Minutes`
 - `Linear10PercentEvery10Minutes`
- **Canary:** try X percent then 100%
 - `Canary10Percent5Minutes`
 - `Canary10Percent30Minutes`
- **AllAtOnce:** immediate
- Can create Pre & Post Traffic hooks to check the health of the Lambda function
